

PRODUCT INFORMATION

DESCRIPTION

OPTimizer is a moulded plastic cattle ear tag containing diazinon, a highly active organophosphate insecticide. OPTimizer is not affected by pyrethroid resistance in Buffalo fly. It has a bright orange colour for easy visibility. Its net weight of 15 grams assures long-lasting activity. All inert constituents contained in OPTimizer are non-toxic.

EFFECTIVENESS

Controls Buffalo fly, including diazinon-sensitive and pyrethroid-resistant strains for up to 4 months.

PACKAGING

OPTimizer is packaged in sachets containing 20 tags and is available in boxes of 20, 100 and 500 tags.

PRODUCT ADVANTAGES

1. Approved for use on both beef and dairy cattle, including lactating dairy cows.
2. Integral part of Y-Tex tag insecticide rotation program to minimise insecticide resistance.
3. Brings proven weight gains.
4. Reduces need for frequent spray treatments and mustering costs.
5. Nil withholding period. Nil ESI
6. Has Y-TEX patented Snap-Lok™ collar for guaranteed retention against tag or button failure for 5 months.
7. Uses the proven Y-TEX two-piece application system.
8. Rainfast and dipfast.
9. Environmentally friendly.
10. Low toxicity formulation.
